This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at `http://books.google.com/`

‡‡ Census for the whole of British India was taken previous to 1871. The area and population are exclusive of the Feudatory Native States, estimated as 575,265 square miles, with a population of 49 millions.
¶ The Dominion of Canada was formed on the 1st July 1867, of the Provinces of Ontario and Quebec, New Brunswick, and Nova Scotia. Manitoba and the North-west Territory were included in the Dominion in July 1870, British Columbia and Vancouver's Island in July 1871, and Prince Edward Island in July 1873. The Returns of the Shipping and Trade of the Dominion are exclusive of the Inter-Colonial Trade, from the dates of the establishment of the Dominion and the incorporation of the subsequently added Provinces.
§§ Census of 1881, provisional figures.
‖ According to planimetric determination at Gotha, the area should be 2,945,227 square miles; the difference is nearly all in Australia.
‖‖ Including Basutoland, Griqualand East and West, Transkei and Tembuland.
¶¶ Exclusive of Maories.

TO THE SECRETARY OF THE BOARD OF TRADE.

SIR,

I HAVE the honour to submit the nineteenth number of the Statistical Abstract for the several colonial and other possessions of the United Kingdom for the fifteen years 1867 to 1881.

The thanks of the Department are due to the various colonial authorities who, by hastening the transmission of their annual statistical returns, or by filling in specially prepared forms, have enabled this Abstract to be published in a fairly complete shape six months earlier than heretofore. Still, however, much is left to be desired in the promptness of the issue of the statistical returns in certain colonies.

Two new tables have been added to the present number, one of which shows the Customs revenue of all the colonial possessions for the last 15 years, and the other the values of the imports and exports into and from each principal possession, distinguishing the countries with which the trade has been carried on. A table similar to the latter has been included in the Foreign Abstract for some years past, and the present addition to the Colonial Abstract will be a supplement to those returns of international trade. A table of sailing and steam tonnage entered and cleared at certain of the colonies was added to the last number of this Abstract, but this distinction has only been adopted of late years, and is not as yet general in the statistical returns from the colonies.

The Customs tariffs of the various colonies are revised to the date of publication; further detail for the principal colonies may be found in Part 2 of the Foreign and Colonial Import Duty Return, House of Commons Paper No. 322, of 1882.

I have the honour to be,
Sir,
Your most obedient servant,
R. GIFFEN.

Commercial Department,
Board of Trade,
